FREE THROWS

Shooting Fouls

A player fouled while shooting has two options.

Option 1 – Traditional Free Throw

- Attempt one free throw.
- If the free throw is made, the opposing team receives possession.
- If the free throw is missed, the offensive team retains possession.

Option 2 – Moneyball Two-Point Shot

Instead of attempting a free throw, the player may choose to attempt one shot from behind the two-point line.

- If the shot is made, it counts as 2 points.
- If the shot is missed, the opposing team receives possession.

The player must clearly communicate their decision to the referee before the ball is put back into play. Once a decision has been made, it cannot be changed.

TEAM FOULS

- All non-shooting fouls are checked at the top of the court.
- Beginning with the seventh team foul, the offensive team will shoot a 1-and-1 bonus.

Sudden Death Free Throws

If the score is tied at the end of regulation:

- Each team will select one player to shoot a free throw.
- If one player makes the free throw and the other misses, that team wins.
- If both players make or both players miss, additional players will shoot one free throw each until a winner is determined.
- Each player may shoot only once until every player currently on the court has had an opportunity to shoot.
